Digital World Meeting

Doing Business with Data

Giant Screen, Millennium Point

Tuesday 6 May 2014

Steffan Aquarone
Entrepreneur and co-Founder of mobile money app Droplet.

Caroline Beavon
on data journalism, infographics and visualisations, and working with SMEs.

Robin Vickers
Founder of Digital Life Sciences, Start-Up and NHS Partnership Award winner, and Healthcare Without Walls developer.

Max Little
Lecturer at Aston University focussing on biomedicine, extreme rainfall, groundwater flow, speech and signal processing.

Vicky Sargent
co-Founder of Boilerhouse, and informing policy and decision makers.

Andrew Mackenzie
on the West Midlands Open Data Forum and documenting the Open Data landscape.

Focus
The speakers will show how big and open data can be used by individuals and by companies looking to grow.

The event is open to all: to those who create, visualise and analyse our data universe; to those seeking new business ideas or research; to those who rebel as well as revel in the opportunities big data brings.

Free Advice
You are invited to present your business plan and could win up to £2000 from the TSB. Mazars are offering a drop-in clinic from 3-5:30pm for innovative companies or their owners to discuss tax or accounting issues with an expert.

Format
Reception from 5:30pm with short talks followed by Q&A, discussion and networking over dinner till 9:30pm.

Free places. Book Now. Places are limited
